ProxCard® II *Proximity Access Card*

The RF-programmable ProxCard II proximity access card is the industry choice for a cost-effective solution to proximity access control.

BENEFITS

- Offers durable packaging and consistent read range.
- Thin and flexible enough to be carried in a wallet or on a strap clip.
- Custom card printing available.
- PVC overlay allows for on-site photo ID using most direct image printers.
- Smaller order quantities, special coding and overnight delivery possible with Geoffrey's ProxProgrammer™.

FEATURES

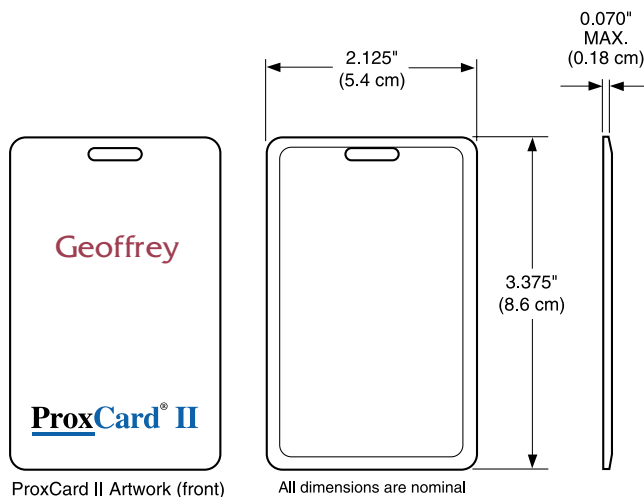

- **Description**
RF programmable, 125 kHz, Geoffrey artwork, customer specified numbers, slot punch.
- **Proven reliable technology**
Offers extremely consistent read range. Unaffected by body shielding or variable environmental conditions, even when close to keys and coins.
- **Convenient to use**
Credit card size fits into wallet or purse.
- **Easily administered**
A cross-reference list correlating the external card number and the programmed ID number provides easy system administration.
- **Security**
Over 137 billion unique codes available.
- **Long life**
Passive, no-battery design allows an infinite number of reads.
- **Durability**
Strong, flexible and resistant to cracking and breaking.
- **Warranty**
Warranted against defects in materials and workmanship for life from date of shipment.
